He also taught German and Latin in the minor seminary, and for two years, from 1950 to 1952, was Master of the Brother Novices here. For a number of years he gave valuable aid to the Natchez-Jackson Diocese as a member of the diocesan matrimonial court.

He will leave Bay Saint Louis for

many spots visited on the Gulf Coast, Mr. and Mrs. Bill McDonald and members of New Orleans were here a week, have been swimming and boat racing, they were very happy, some great trips on the boats of Mississippi Harbor. We are anxious to hear from you.

A party of six men enjoyed a camping trip over the weekend up Jordan river.

In the party were William Pitts and Linda Elliott of Baton Rouge; Wally Whistler of New Orleans; David Wiley of Donaldsonville, La.; Bob Hartley, Norfolk, Va., and yours truly.

Besides a couple of mosquito bites and being wet a couple of times they managed to catch some fish.

Bob did the cooking. Wally baked a ham and the others did most of the eating. Come again fellows!

Mr. Joe DiBenedetto has been making his usual fishing trips up Jordan River. He reported catching some nice "Reds." Mr. Joe is an ardent fisherman and usually catches his share.

Hard crabs and shrimp are making their appearance and some good catches are being made.

STATE GAME OUTLOOK GOOD FOR 1959-60 HUNTING SEASON

Although the official opening of the 1959-1960 hunting season is still a few weeks away there's good news regarding the game prospects for the 1959-1960 hunting season. The outlook for a good crop of all species of game in the state is very bright at this time.

STATE'S DEER POPULATION RISES SEVEN FOLD IN FIFTEEN YEARS

In 1943, there were only 26 Mississippi counties open to deer hunting, less than 500 deer killed by hunters, and the estimated

deer population in the State was a meager 10,000. By 1958, this picture changed. Sixty-five counties were open to deer hunting, more than 4,000 were killed by hunters, and the estimated population was 75,000. Although trapping and restocking activities within the state are largely responsible for big increases in deer numbers, deer are being trucked into the state.

MISSISSIPPI TOLL BRIDGE CHARGES ON TWO COAST SPANS

Toll-free charges on both the Bay St. Louis and Pascagoula bridges on U.S. Highway 90 are recommended by bridge trustees in an annual audit released by the Mississippi State Highway Department.

15 CENT TOLL

The report noted that the Hancock Bank, trustee for the Bay St. Louis bridge, has recommended setting at 15 cents the toll on passenger automobiles and trucks having not more than two axles and not more than four tires.

This compares with the current toll of 25 cents on vehicles in this class.

However, the report stated a preliminary report from consulting engineers indicated they would recommend no toll changes.

The Pascagoula Moss Point Bank, trustee for the Pascagoula bridge recommended the cost of commuter books be reduced from \$5 to \$2, the audit indicated. In effect this would reduce

dear population in the State was a meager 10,000. By 1958, this picture changed. Sixty-five counties were open to deer hunting, more than 4,000 were killed by hunters, and the estimated population was 75,000. Although trapping and restocking activities within the state are largely responsible for big increases in deer numbers, deer are being trucked into the state.

Bank for commuters recommended toll rates based on the number of drivers.

Once again, however, the audit indicated consulting engineers declined to recommend any change in current tolls.

BAY BRIDGE

The Bay St. Louis bridge, constructed in 1963 at a cost of \$8,160,000 carried a remaining bonded indebtedness of \$6,830,000 as of June 30, 1959.

The audit showed 12,711,120 vehicles crossed the bridge since its opening on August 2, 1953, with toll collections amounting to \$3,943,673.10.

The Pascagoula bridge, constructed in 1963 at a cost of \$8,283,632 has outstanding bonded indebtedness of \$6,341,000 as of June 30, end of the past fiscal year.

The Pascagoula bridge has been crossed by 11,575,463 vehicles since opening on Oct. 16, 1954, with toll collections totaling \$3,883,899.48.

During the past fiscal year, 2,297,806 vehicles crossed the Bay St. Louis span and toll collections amounted to \$709,673.27. The rate of vehicle crossings was a 3.80 per cent increase over the previous year and fare collections were up 3.41 per cent, the audit

noted. The announcement of 45 new industries and 19 industrial expansions promise of 4,900 new jobs. Thus, the increase in job opportunities appears to be almost double the increase in job opportunities appears to be almost double the increase of a year ago.

AND ANNUAL
LEGISLATIVE
SESSION IN FALL

A series of six legislative clinics will be held throughout the state in October under the sponsorship of the Mississippian Association and Mississippi Economic Council.

Chairman C. O. Parker, Jr., of the Mississippi Press Association and President Morris Lewis of the Mississippi Economic Council will be present at each meeting.

The clinics will be held members of the new 1960-64 State Legislature with facts and figures regarding the problem they will when they convene in January.

The idea of holding legislative clinics was conceived by the Mississippi Press Association twenty years ago. The Mississippi Economic Council, the state's Chamber of Commerce, joined the sponsor in 1958.

FOREST FIRES COSTLY

Unusually dry weather has created an especially serious forest hazard in various sections of our state this summer, and the factor of human carelessness is always present. During the 12 month period ending June 30th, protected counties suffered 8,278 forest fires burning 100,392 acres and representing an economic loss of about \$3,500,000. In addition to the 12 counties not under protection suffered 1,735 fires which burned 40,139 acres resulting in an additional loss of \$1,250,000 to Mississippi's economy. The latest reports on fire losses indicate that Mississippi still has a long way to go in eliminating the tragic and needless losses from forest fires.

SHEEP GROWERS OF MISSISSIPPI

Jackson, Miss., August 18. Sheep growers in Mississippi, who will soon receive ballots in the referendum on the check-off of funds, are advised by Bowell Stevens, President of the Miss. Farm Bureau Federation, that Farm Bureau opposes mandatory deductions for promotion.

"Farm Bureau is for the promotion of all commodities on a voluntary basis," he said, "but our position is not for a mandatory check-off."

Producers are scheduled to return their ballots to County Agricultural Conservation and Stabilization offices not later than September 30.

The American Farm Bureau Federation has registered strong protest to compulsory check-off of funds for wool and lamb production. Farm Bureaus in other states have maintained similar positions.

The proposal on which the referendum is held was submitted by the American Sheep Producers Council, Inc. It would allow deduction of 1c per pound of shorn wool marketed and a comparable rate of 5c per hundred pounds of liveweight for unshorn lambs marketed.

The American Farm Bureau information bulletin, which is being sent to producers, states that since 1955, the sum of over \$12 million was checked off from payments due producers. "After 4 years of operation," the bulletin reports, "there is no evidence that the expenditure of wool check-off money belonging to producers, has resulted in a noticeable increase in the demand for or prices of wool or lambs."

During 1958, an estimated \$4 million was checked off. This total is included in the total of \$12 million for the four-year period.

Farm Bureau points out that a "no" vote will not change other provisions of the present incentive program. In 1955, when the check-off was voted in, only about 15 percent of growers voted for it, and the great majority of growers did not vote at all, Farm Bureau reports.

MISSISSIPPI CAN BE PROUD

Mississippi has much and many things of which to be proud. The pattern of growth, economically, leads the nation in many fields for the period of 1939 to 1959. Mississippi ranks 10th in the U.S. in oil production—140 oil fields, 2,300 wells, and 8th in broiler growing. Mississippi ranks 12th in the nation in the number of cattle and calves on farms, and fourth in man-days worked.

Exports total \$186 million yearly. In the past 20 years the number of 8/27/4t.

of industry and industrial employee totals any other state. Miss. also has the most perfect four-season weather, 400 known salt domes, 13 state parks and plenty natural resources.
